HELPING US TO HELP YOU

URGENT CARE CLINICS

The way we deliver care is changing. We have on the day appointments with Advanced Nurse Practitioners for a variety of conditions

MUSCULOSKELETAL SERVICE

We also have extended scope musculoskeletal Practitioners who can diagnose and treat injuries, back problems, neck pain and knee/hip problems and a range of other musculoskeletal problems.

A GP is on hand at all times to offer a second opinion when required.

Minor illnesses that can be treated by a

Pharmacist:

Warts

Headlice

Sore throats

Bruises

Hayfever

Nappy rash

Conjunctivitis

Eczema

Athletes foot

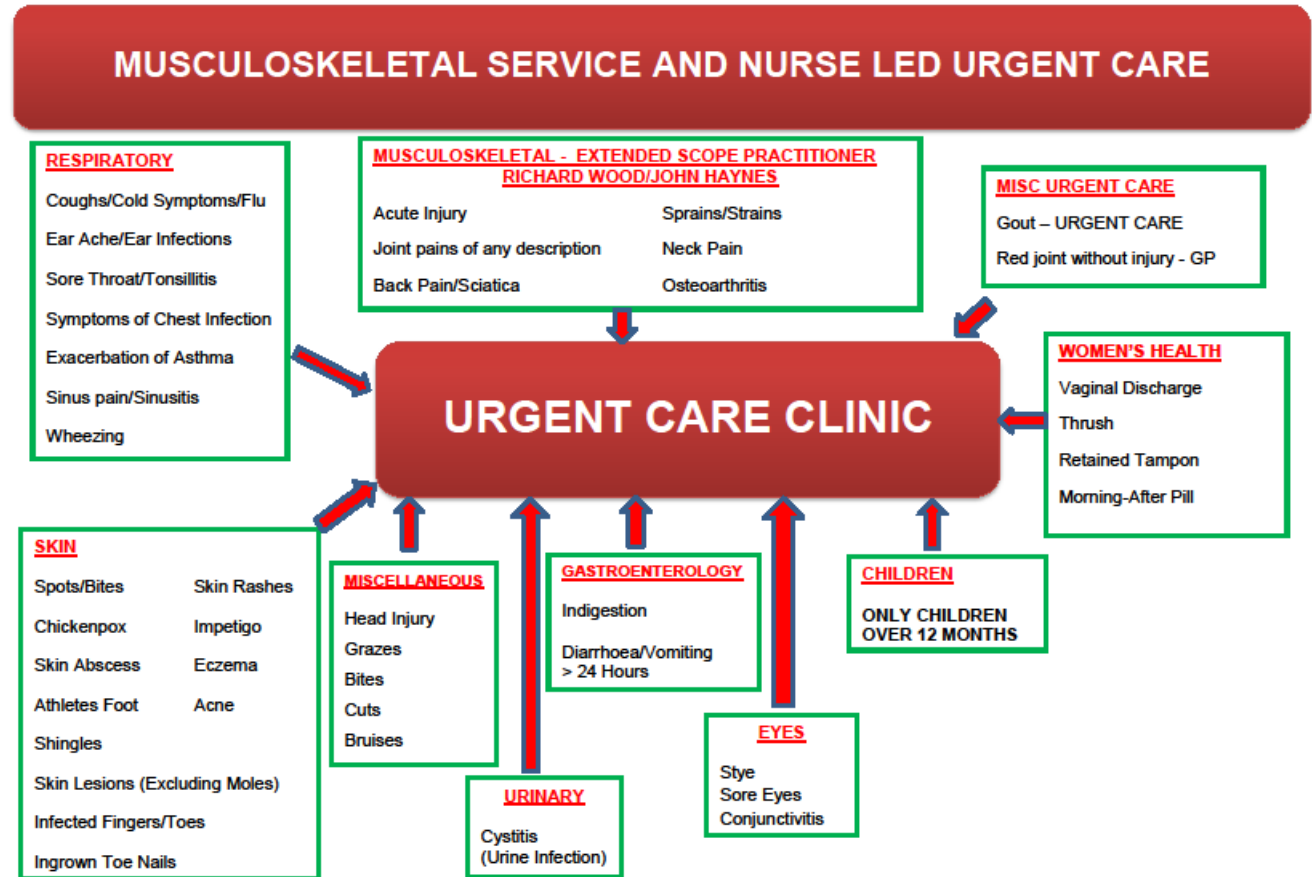

Visiting your Pharmacist about common health problems can save a trip to your GP or A&E

These services are designed to improve access for our patients, by signposting to a more appropriate clinician for the nature of the condition.

GPs are always available to these Clinicians should the need arise.

GPs will have more capacity to see patients with complex medical problems.

These clinics are very popular and 100% of the patients surveyed recently had been pleased with how accessible these clinics were and reported being happy with the care they received.
